

## Development of a Neuro-Neonatal Intensive Care Unit (NICU)

YEAR FUNDED	AMOUNT FUNDED
2009	\$50,000

This funding allowed for the completion of our Neuro-NICU program, where the use of cooling therapy halts the cascading effect of brain damage when a newborn is deprived of oxygen.

## Extracorporeal Life Support (ECMO) Equipment

YEAR FUNDED	AMOUNT FUNDED
2006	\$29,000

This equipment offers mechanical heart and lung support in life-threatening situations, allowing the patient's organs to rest and recover while the system pumps blood and oxygen throughout the body.
