

Gift Cards

Gift Cards provide a unique opportunity for our Child Life staff to meet special needs of our patients and families.

Sometimes stressed out patient parents and family members need a little break and to be able to give them a gift card to go get a meal can make all the difference in their not only their day but their week.

“When a parent learns that their child is sick, a whole new level of worry arises on a daily basis. At one point in our child's journey, she was admitted for 10 months! During that stay, we celebrated every holiday within the walls of Phoenix Children's Hospital. On many occasions, the outlook was very bleak. But...it was the "gift" of gift cards that encouraged my child to continue to fight. She loves shopping, music and movies, and through the generous donation of gift cards, she was able to "shop online" from her patient room. She could buy a simple gift for her sibling, allowing her to feel better connected to the outside. To most, this seems insignificant, but to our family...it was EVERYTHING! THANK YOU to the generous donors of gift cards! Spirits are lifted, financial burdens are lightened and hearts are filled with so much gratitude!” –A Grateful PCH Parent
