

Impact Video links

We've compiled a list of impact video links that you can pull from when sharing about how donations make a difference with your teams. The short 30 sec. videos are intended to provide the perspective of a colleague at the hospital and what philanthropy helps them do for the kids at Phoenix Children's. The longer form videos provide a perspective of a patient family, and often include their care team, and how philanthropy impacted their journey at Phoenix Children's. These can be used to support the themes of the We Got Heart campaign or separately as a touch point to start a conversation.

:30 Employee Impact Videos

Child Life Specialist

Healing the body and spirit.
